Next Weekend
2nd Collection:
Church in Latin America

Dear Brothers and Sisters in Christ,
The people of Latin America are faith filled, but the needs and challenges that the Church faces are great. Christian values remain important, but many families are wounded by hostility from the surrounding environment, gang violence, drug trafficking, human trafficking and a lack of education.

The Church continues to point the way to Christ as the source of hope and healing within the family and among Latin American people. Many family and Catechetical ministry projects are needed in Latin American countries to offer a way to strengthen, affirm, and celebrate family and community life, offering a new and promising vision for relationships with one another and with God.

The annual Collection for the Church in Latin America helps to fund projects that form family pastoral ministers who are helping nourish families, focusing on ministry, and supporting communities with existing programs, especially for the younger members of families.

Parishes throughout the Diocese of Venice will take up the Collection for the

**Church in Latin America the weekend of January 19 and 20, 2019.**

Your support will truly make a difference in the lives of our sisters and brothers in Latin America. Thank you for your generosity!

I take this opportunity to extend to each of you my blessings in this New Year. Thank you and may God bless you and your family for your support of the Church in Latin America.

Sincerely yours in Christ,
+ Frank J. Dewane Bishop, Diocese of Venice

The flu comes on suddenly, and symptoms may vary. Most common flu symptoms include, fever, headaches, body aches, fatigue, a dry cough and chills and sweats. If you have these symptoms you should seek medical attention immediately. Occasionally, they also include stuffy or runny nose, sneezing, sore throat, and nausea. This can make it hard to differentiate from a common cold.

Highest risk for the flu are the elderly, very young, and those with medical conditions. The CDC recommends everyone 6 months and older receive a flu shot every year. It is a MYTH that the flu shot can give you the flu. If you do experience flu like symptoms after your vaccine, you were probably exposed to the flu virus. This could occur shortly before getting vaccinated, or during the 2 week period after vaccination that it takes the body to develop immune protection.

Some drug stores offer flu shots for those 18 and older, and no appointment is required. For Medicare and most insurances, there is no charge. If you do not have insurance, costs vary from $30-40.

Let’s all do our part to keep each other healthy.

Remember: it’s not too late to vaccinate!
